---

---

---

---

---

---

---

---

---

$y > 2x + 2$      $y = 2x + 2$

$y \leq -x - 4$

$y = -x - 4$

Solve Systems of Linear Inequalities

---

---

---

---

---

---

---

---

---

---

Graph these Inequalities and Identify the solution:  
 $y < 2x - 4$   
 $y > x + 2$   
You Try It!

---

---

---
